1 Postsecondary Data Model Rationale

The monitoring priorities and indicators of the OSEP State Performance Plan (SPP) mandate the gathering of data on the postsecondary activities of individuals exiting special education. The SPP Monitoring Priority Indicator for postsecondary transition is defined as “the percent of youth who had IEPs, are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school..... **timing the data collection so that at least one year has passed since the students left school.**” The specific reporting practices require that we “address all youth who left school, including those who graduated, dropped out and aged out”.

To meet the requirements of the SPP, the Postsecondary Survey for individuals exiting school during the 2017-2018 school year will be conducted between June 1 and July 31, 2019. The report must be submitted to the Division for Special Education by July 31, 2019.

The survey will be completed via the MyGaDOE Web Portal. The application will open for reviewing student data on or around February 15, 2019 and open for data entry May 15, 2019. You must be provisioned in the role of Special Education Director for your district to access the survey. If you have questions about becoming provisioned, please contact the **Information Systems Customer Support Center** by emailing dticket@doe.k12.ga.us or by calling **1-800-869-1011**.

2 Postsecondary Survey Data Element Detail

The Postsecondary Survey is a pre-populated survey based on data submitted by districts in the FY 2018 Student Record on individuals who exited high school during the 2017- 2018 school year. Please collect postsecondary activity information between June 1, 2019 and July 31, 2019. **Report each individual in the ONE postsecondary activity that best describes his/her postsecondary status.**

Example Survey (Postsecondary Activity will be blank until the application is open, and data is entered.)

3.5.6 File Edits

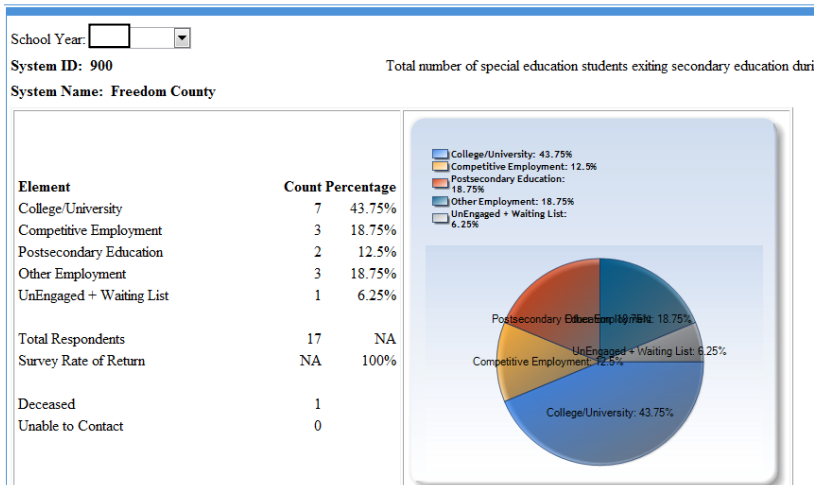

You will not be able to upload your data if one of the errors has occurred.

- GTID not reported by district as student exiting secondary school in the prior school year.
- GTID reported by district as a student exiting with a regular diploma but reported with a postsecondary activity code of 9, returned to High School in the postsecondary survey. Activity code 9 is not a valid value for students who have earned a regular diploma.
- No postsecondary activity reported.
- Not a valid postsecondary activity code (1-10).

4 Track Reported Data

A dashboard is available to track the number and percentage of responses in each postsecondary activity. The survey return rate will not be calculated until after the survey is submitted.
