

Selecting Evidence-Based Practices to Improve Student Outcomes, Part 1

*Cynde Snider, PhD
Professional Learning Specialist*

Dr. John D. Barge, State School Superintendent
"Making Education Work for All Georgians"
www.gadoe.org

Learning Targets

I can describe a process for determining the type of evidence-based practices/interventions necessary to improve outcomes for targeted students.

I can access and utilize at least two electronic resources to aid in the selection of appropriate evidence-based practices/interventions.

Learning Targets

I can describe a process for determining the type of evidence-based practices/interventions necessary to improve outcomes for targeted students.
